Inquisitive

About

A UX/UI designer with a passion for improving people's lives through design thinking. Using my empathetic nature, I create human centered, intuitive design to remove friction between user's actions and their goals.

Projects | Portfolio

Responsive Design | DELL GAMING SUBSITE

5 week design challenge of research, design, and developing a VR gaming subsite for Dell. Owned mobile design and front-end development of the site.

Responsive Redesign | SAVE AN ANGEL WEBSITE

4 week design challenge of research and redesigning Save an Angel's website to be more responsive and intuitive. Worked closely with stakeholder to meet their needs, and their user's needs. Acted as PM and main designer.

Experience

UX Research Recruiter, Incentive Processor | Google

May 2018 - June 2019 | Austin TX

- Designed new template for customer-facing emails
- Collaborated with UX Researchers for participant recruitment.
- Created UX Research study surveys.
- Expert in study incentivization and conducted office hours for all of Google's UX Operations.

Japanese Data Analyst | Apple

July 2017 - May 2018, Austin TX

- Utilized native Japanese language skills to meet time sensitive deadlines on the live market.
- Created a new manual for the Japanese market for policy consistency.
- Grader for Japanese new hire assessments.

Education

UX/UI Certificate Program | University of Texas

June 2019 - December 2019

Bachelor Japanese Culture & Linguistics | University of Oregon

September 2013 - June 2017, Eugene, OR

- Minor in Business Administration.
